MEMORANDUM FOR THE RECORD

SUBJECT: [REDACTED]

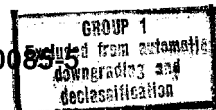

1. After reading the report of audit on [REDACTED],
I spoke to Larry Houston ~~regarding~~ in his [REDACTED]
of the [REDACTED] He said he had
read the report and was "not too concerned about the contents." He
told me that as soon as he receives some requested guidance from
the DDCI, the committee plans to carefully examine [REDACTED]
[REDACTED] activity to insure that it is necessary and properly
organized.

2. I told Mr. Houston that I could not help but have some
doubts about [REDACTED] programs in general since most of the
audit reports left much to be desired. He agreed with me that it
was difficult to obtain an over-all view of any activity just from
reading the report of audit. This is one of the reasons why he and
his committee plan to do a thorough analysis of [REDACTED]
He also commented that a preliminary report done by [REDACTED]
listing our assets, in this field for the first time, was a good start
and he felt that as a result of the [REDACTED] report more direct guidance
and management of these activities is being taken. I am not quite
as reassured as Larry seems to be and will be interested in seeing
the results of his committee's survey.

[REDACTED]
J. S. Earman
Inspector General

*period 1 Jul 62 -
30 Jun 63
